

I am a very satisfied customer of XM radio and I think that they should be able to provide traffic and weather. I feel the NAB's petition 04-160 should be rejected and XM-Radio should be allowed to continue to offer these local services. I was recently forced to listen to conventional radio and I was dismayed at the lack of quality programming it offered after I had been listening to the very high quality of service that XM-Radio provides. Thanks,

Victor Jones
